The 92nd Annual Meeting of the Japanese Orthopaedic Association (1)

May 9–12, 2019  Yokohama
Congress President: Toshihiko Yamashita, M.D.
Department of Orthopaedic Surgery, School of Medicine, Sapporo Medical University

1st Day  May 9  Room 1

<tr>
<td>9:15–9:45</td>
<td>Opening ceremony</td>
<td>Congress President  Toshihiko Yamashita</td>
</tr>
<tr>
<td>9:45–10:45</td>
<td>Special lecture 1</td>
<td>Moderator  T. Yamashita</td>
</tr>
<tr>
<td>10:50–12:10</td>
<td>Symposium 1</td>
<td>Moderators  H. Matsumoto, K. Kaneoka</td>
</tr>
<tr>
<td></td>
<td>Innovation in orthopaedic medicine through TOKYO 2020</td>
<td></td>
</tr>
<tr>
<td>10:50–12:10</td>
<td>Football in Japan - Challenge and future dream - Courage to achieve</td>
<td>K. Tashima, Japan Football Association</td>
</tr>
<tr>
<td>10:50–12:10</td>
<td>Sport medicine and TOKYO 2020 Games</td>
<td>I. Kono, The Tokyo Organising Committee of the Olympic and Paralympic Games</td>
</tr>
<tr>
<td>10:50–12:10</td>
<td>Conditioning support from the aspect of an athletic trainer</td>
<td>T. Suzuki, R-body project Co., Ltd.</td>
</tr>
<tr>
<td>10:50–12:10</td>
<td>Changes of rehabilitation practice influenced by TOKYO 2020</td>
<td>T. Suyama, et al., Nihon Rehabilitation College</td>
</tr>
<tr>
<td>10:50–12:10</td>
<td>The change of the Japanese Orthopaedic Association for TOKYO 2020</td>
<td>M. Yamazaki, Dept. of Orthop. Surg., Univ. of Tsukuba</td>
</tr>
<tr>
<td>13:50–14:20</td>
<td>Congress President lecture</td>
<td>Moderator  K. Marumo</td>
</tr>
<tr>
<td>14:25–15:45</td>
<td>Symposium 2</td>
<td>Moderators  J. Toguchida, Y. Shimada</td>
</tr>
<tr>
<td>14:25–15:45</td>
<td>Current status and future of regenerative medicine in Japan</td>
<td></td>
</tr>
<tr>
<td>14:25–15:45</td>
<td>Development and future of regenerative medicine: Light and shadow</td>
<td>Y. Sawa, Dept. of Cardiovascular Surg., Graduate School of Medicine, Osaka Univ.</td>
</tr>
<tr>
<td>14:25–15:45</td>
<td>Meniscus regeneration by synovial mesenchymal stem cells</td>
<td>I. Sekiya, et al., Center for Stem Cell and Regenerative Medicine, Tokyo Medical and Dental Univ.</td>
</tr>
<tr>
<td>14:25–15:45</td>
<td>Cell therapy for stroke and spinal cord injury</td>
<td>O. Honmou, Dept. of Neural Regenerative Medicine, Sapporo Medical Univ.</td>
</tr>
<tr>
<td>15:55–17:15</td>
<td>Symposium 3</td>
<td>Moderators  T. Fuji, K. Sairyo</td>
</tr>
<tr>
<td>15:55–17:15</td>
<td>How people perceive orthopaedics in Japan?: Promotion of locomotive syndrome and media</td>
<td></td>
</tr>
<tr>
<td>15:55–17:15</td>
<td>Public relations activities of the Japan Locomo Challenge Promotion Conference</td>
<td>S. Yamaguchi, et al., Collage of Liberal Arts and Sciences, Chiba Univ.</td>
</tr>
</tbody>
</table>

— 108 —
1-1-S3-2 Media and orthopaedic surgery: Making programs for public broadcasting services
Y. Aoyagi, Japan Broadcasting Corporation―S9

1-1-S3-3 Orthopaedics and locomotive syndrome seen from TV media
S. Takahashi, television producer―S10

1-1-S3-4 Ten years interview with orthopaedic surgeons: From medical writer
R. Komata, Nikkei Medical Publishing, Inc―S10

1-1-S3-5 What is locomotive syndrome?
S. Tanimura, novelist―S11

1-1-KL The points of medical writing
K. Takahashi, Chiba Univ―S12

1-2-SIL1 Anatomical ACL reconstruction 2019
K. Shino, Sports Orthop. Center, Yukioka Hosp―S12

1-2-IL1-1 Individualized anatomic ACL reconstruction
F. H. Fu, Univ. of Pittsburgh, Pittsburgh, PA, USA―S13

1-2-IL1-2 Current ACL reconstruction - JAPAN

1-2-LS1 Pathology and treatment of knee osteoarthritis: A community-based cohort study
Y. Ishibashi, Dept. of Orthop. Surg., Hirosaki Univ. Graduate School of Medicine―S14

1-2-IL2-1 Why screening to predict injury does not work – and probably never will...
R. Bahr, Oslo Sports Trauma Research Center, Oslo, Norway―S15

1-2-IL2-2 Mechanisms and prevention of knee ligament injuries in sports
A. Nakamae, et al., Dept. of Orthop. Surg., Hiroshima Univ―S15

1-2-S4-1 Current status of Japanese tissue transportation (Current status of cryopreserved skin transportation)
H. Tanaka, Japanese Society of Tissue Transplantation―S16

1-2-S4-2 Tissue bank in Japan
S. Tamura, et al., The Univ. of Tokyo Tissue Bank―S16

1-2-S4-3 Current status of clinical islet transplantation in Japan
T. Kenmochi, et al., Dept. of Transplant. and Regenerative Med., Fujita Health Univ., School of Medicine―S17

1-2-S4-4 Current status of corneal transplantation
J. Shimazaki, Dept. of Ophthalmology, Tokyo Dental College, Ichikawa General Hosp―S17

1-2-S4-5 Current status of bone transplantation in Japan
K. Urabe, Dept. of Orthop. Surg., Kitasato Univ. Medical Center―S18

1-2-SIL2 Sports medicine for the orthopaedic surgeon: Past, present, and the future
T. Fukubayashi, Tokyo Ariake Univ. of Medical and Health Sciences―S19

Clinical feature of musculoskeletal fractures and the level of need for nursing care

1-5-26

1-5-27 Verification of the accuracy and precision of simple navigation system for THA

1-5-28 Comparative study of intraoperative support devices used when setting acetabular cup with total hip arthroplasty

1-5-29 Comparison of intraoperative leg length change in total hip arthroplasty with image free navigation and leg length discrepancy with X-ray and 3D matching

1-5-30 Portable navigation system “AR-HIP” in decubitus lateral position by using augmented reality

1-5-31 Use of the intra-operative measurement of stem anteversion during total hip arthroplasty and place cement femoral stem with appropriate position

1-5-32 Femoral rotation angle after total hip arthroplasty is influenced by cup medialization

1-5-26 T. Tominaga, et al., Dept. of Orthop. Surg., Yamaguchi Rosai Hosp.—S46

1-5-28 M. Matsubara, et al., Dept. of Orthop. Surg., Kurashiki Central Hosp.—S47

1-5-29 S. Tone, et al., Dept. of Musculoskeletal Surg., Mie Univ. Graduate School of Medicine—S48

1-5-31 R. Mitsutake, et al., Dept. of Orthop. Surg., Asahikawa Medical Univ.—S49

1-5-32 H. Koyama, et al., Dept. of Orthop. Surg., Jyuzen Memorial Hosp.—S49

1-6-1 Radiological assessment for etiology of simple bone cyst arising from calcaneus

1-6-2 Examination of MRI evaluation in follow-up of desmoid-type fibromatosis

1-6-3 MRI evaluation for resected malignant bone tumors in the femurs

1-6-4 The application for musculoskeletal tumor using MRI/US fusion imaging

1-6-5 Artificial intelligence versus orthopaedic oncologists in radiographic detection of bone tumors

1-6-6 Role of FDG-PET in diagnosis and features of musculoskeletal tumors

1-6-1 M. Hoshi, et al., Dept. of Orthop. Surg., Osaka City Univ. Graduate School of Medicine—S50

1-6-2 T. Sakai, et al., Musculoskeletal and Cutaneous Surg., Graduate School of Medicine, Nagoya Univ.—S50

1-6-3 A. Sakamoto, et al., Dept. of Orthop. Surg., Graduate School of Medicine, Kyoto Univ.—S51

1-6-4 T. Furuta, et al., Dept. of Orthop. Surg., Graduate School of Biomedical & Health Sciences, Hiroshima Univ.—S51

1-6-5 T. Kubo, et al., Dept. of Orthop. Surg., Graduate School of Biomedical Sciences, Hiroshima Univ.—S52

1-6-6 M. Suzuki, et al., Dept. of Orthop. Surg., Yokohama City Univ. Hosp.—S52

1-6-7 Metformin inhibits osteosarcoma growth through regulation of metabolic state in tumor associated myeloid cells

1-6-8 Development of the new therapy with cold plasma-stimulated transfusion (PLAST) for osteosarcoma

1-6-9 Treatment for sarcoma by novel NF-κB inhibitor SEMBL with doxorubicin or paclitaxel

1-6-7 T. Uehara, et al., Dept. of Orthop. Surg., Okayama City Hosp.—S53

1-6-8 T. Ando, et al., Dept. of Orthop. Surg., Graduate School of Medical Science, Univ. of Yamanashi—S53

1-6-9 T. Matuo, et al., Dept. of Orthop. Surg., Hiroshima Prefectural Hosp.—S54
1-6-10 High efficacy of combination therapy of mTOR inhibitor and VEGFR inhibitor against osteosarcoma using patient-derived orthotopic xenograft model

H. Oshiro, et al., Orthop. Surg., Graduate School of Medicine, Univ. of the Ryukyus...S54

1-6-11 Platelets induce osteosarcoma metastasis

J. Ichikawa, et al., Dept. of Orthop. Surg., Graduate School of Medical Science, Univ. of Yamanashi...S55

1-6-12 Epigenetic reprogramming underlies the efficacy of DNA demethylating therapy in osteosarcomas

N. Asano, et al., Dept. of Orthop. Surg., Keio Univ...S55

14:40~15:40 Free papers Soft tissue tumor Moderator Y. Yazawa

1-6-13 A study for the surface temperature of soft tissue tumors

A. Shimatani, et al., Dept. of Orthop. Surg., Osaka City Univ. Graduate School of Medicine...S56

1-6-14 Precision medicine for treatment of desmoid tumor based on CTNNB1 mutation status

Y. Nishida, et al., Musculoskeletal and Cutaneous Surg., Graduate School of Medicine, Nagoya Univ...S56

1-6-15 Clinical result and differentiated diagnosis between atypical lipomatous tumor and intramuscular lipoma

Y. Mimata, et al., Dept. of Orthop. Surg., Iwate Medical Univ...S57

1-6-16 Clinicopathological features of superficial epithelioid sarcomas

N. Asano, et al., Dept. of Orthop. Keio Univ...S57

1-6-17 Surgical outcomes in elderly patients over 80 years with soft tissue sarcomas

K. Ikuta, et al., Musculoskeletal and Cutaneous Surg., Graduate School of Medicine, Nagoya Univ...S58

1-6-18 Clinical features and outcome of pediatric patients with soft tissue sarcoma

H. Koike, et al., Dept. of Orthop. Surg., Nagoya Univ Hosp...S58

15:55~17:15 Free papers Bone tumor Moderator R. Nakayama

1-6-19 Pulmonary metastases from giant cell tumor of bone from three Japanese institutions

E. Kobayashi, et al., Dept. of Musculoskeletal Oncology, National Cancer Center Hosp...S59

1-6-20 Middle-term clinical and pathological results of giant cell tumor of bone treated with operation and denosumab

K. Hayashida, et al., Musculoskeletal Science, Yokohama City Univ.

Graduate School of Medicine...S59

1-6-21 Postoperative limb function and its associated factors in patients with osteosarcoma in the femur treated with megaprosthesis

E. Araé, et al., Musculoskeletal and Cutaneous Surg., Graduate School of Medicine, Nagoya Univ...S60

1-6-22 Surgical indication of osteoarticular frozen autograft for malignant bone tumor involving epiphysis

K. Hayashi, et al., Dept. of Orthop. Surg., Graduate School of Medical Sciences, Kanazawa Univ...S60

1-6-23 Frozen autograft using iodine-coated implants for patients with malignant bone tumors

T. Shirai, et al., Dept. of Orthop., Graduate School of Medical Science, Kyoto Prefectural Univ. of Medicine...S61

1-6-24 Investigation of carbon ion radiotherapy for pelvic bone tumor

K. Seito, et al., Dept. of Orthop. Surg., Gunma Univ. Graduate School of Medicine...S61

1-6-25 Bone sarcomas except for osteosarcoma, Ewing sarcoma, and chondrosarcoma: Data from the Bone Tumor Registry of Japan

A. Nagano, et al., Dept. of Orthop. Surg., Graduate School of Medicine, Gifu Univ...S62

1-6-26 Clinical outcome of clear cell chondrosarcoma: A multicenter study from the Japanese Musculoskeletal Oncology Group

R. Nakayama, et al., Dept. of Orthop. Keio Univ...S62

17:30~18:30 Free papers Tumor: Others Moderator Y. Nishida

1-6-27 Correlation between Inflammation and prognosis in the patients with osteosarcoma

Y. Araki, et al., Dept. of Orthop. Surg., Graduate School of Medical Sciences, Kanazawa Univ...S63

— 114 —
A study of double cancers include malignant bone and soft tissue tumors
A. Shimatani, et al., Dept. of Orthop. Surg., Osaka City Univ. Graduate School of Medicine...S63

Can the specialized medical care for the muculoskeletal tumor in the general hospital increase the benefit?
T. Tajino, et al., Div. of Orthop. Surg., Southern Tohoku Fukushima Hosp...S64

Development of clinical practice guidelines for the management of soft tissue tumors based on the Minds CPG manual ver.2.0
S. Iwata, et al., Dept. of Musculoskeletal Oncology, National Cancer Center Hosp...S64

Survey on current oncofertility status at sarcoma treatment hospitals
R. Nakayama, et al., Dept. of Orthop. Keio Univ...S65

Definition of elderly patients of soft tissue sarcoma in terms of completion of standard therapy
T. Morii, et al., Dept. of Orthop. Surg., Kyorin Univ...S65

Venous thromboembolism before primary total hip and total knee arthroplasty
T. Nakamura, et al., Dept. of Orthop. Surg., Toyama Prefectural Central Hosp...S66

Comparison of the incidence of venous thromboembolism with minimally invasive total hip arthroplasty
T. Nishiwaki, et al., Dept. of Orthop. Surg., Shizuoka Red Cross Hosp...S66

Can proximal DVT develop early after venous thromboembolism prophylaxis?
H. Shimada, et al., Dept. of Orthop. Surg., Niigata Bandai Hosp...S67

Unfractionated heparin reduces the incidence of proximal deep venous thrombosis in the patients before surgery of pelvic or lower extremities fractures
D. Sugita, et al., Dept. of Orthop. Surg., Fukui Univ...S67

Prevention and treatment of deep vein thrombosis by using Xa inhibitor after total joint arthroplasty
S. Tone, et al., Dept. of Musculoskeletal Surg., Mie Univ. Graduate School of Medicine...S68

Incidentally detected abnormal findings on enhanced CT to screen for thrombosis after hip surgery
A. Oya, et al., Dept. of Orthop. Keio Univ...S68

Stress distribution of the femoral head after rotational acetabular osteotomy
D. Suzuki, et al., Dept. of Health Sci., Chitose Rehab. Univ...S69

Postoperative evaluation of the hip remodeling in rotational acetabular osteotomy
T. Takasago, et al., Dept. of Orthop., Tokushima Univ. Graduate School...S69

Three-dimensional gait analysis before and after rotational acetabular osteotomy for hip dysplasia
R. Tanaka, et al., Dept. of Orthop. Surg., Hiroshima Prefectural Rehabilitation Center...S70

Morphological and biochemical changes of articular cartilage after rotational acetabular osteotomy
M. Oyama, et al., Dept. of Orthop. Surg., Sendai Red Cross Hosp...S70

Investigation for the influence of preoperative proximal translation of the femoral head on postoperative distal translation by performing rotational acetabular osteotomy for developmental dysplasia of hip

The change of sacral slope and lumbar lordosis following curved periacetabular osteotomy
A. Nozaki, et al., Div. of Orthop. Surg., Niigata Univ. Graduate School of Medical and Dental Sciences...S71

1-7-LS4  Optimization of rheumatoid arthritis treatment by IL-6 inhibition  "T. Kojima, Musculoskeletal and Cutaneous Surg., Graduate School of Medicine, Nagoya Univ."—S72

**14 : 40〜15 : 40**  Free papers  Acetabular osteotomy  Moderator  Y. Yasunaga

1-7-14  Long-term outcome of eccentric rotational acetabular osteotomy combined with intertrochanteric valgus osteotomy for adult hip dysplasia  "Y. Osawa, et al., Musculoskeletal and Cutaneous Surg., Graduate School of Medicine, Nagoya Univ."—S73

1-7-15  A long-term result of rotational acetabular osteotomy  "H. Tochio, et al., Dept. of Orthop. Surg., Showa Univ."—S74

1-7-16  Details and influence of lateral femoral cutaneous nerve injury in the early phase after periacetabular osteotomy  "N. Doi, et al., Dept. of Orthop. Surg. of Fukuoka Univ."—S74

1-7-17  The incidence of pubic/ischial stress fractures after curved periacetabular osteotomy  "Y. Masumoto, et al., Dept. of Orthop. Surg., Fukuoka Univ."—S75

1-7-18  Atypical acetabular morphology in total hip arthroplasty after rotational acetabular osteotomy may mislead acetabular component implantation  "T. Tanaka, et al., Orthop. Surg., Graduate School of Medicine, The Univ. of Tokyo"—S75

**15 : 55〜17 : 15**  Free papers  Pediatric hip  Moderator  M. Goto

1-7-19  How has Hamamatsu city’s screening for developmental dysplasia of the hip changed due to change of medical examination form based on recommended check points  "K. Sugiura, et al., Dept. of Orthop. Surg., Hamamatsu Univ. School of Medicine"—S76

1-7-20  Long term results of developmental dysplasia of the hip treated with pelvic and/or femoral osteotomy: Does the Severin classification reflect long-term prognosis?  "R. Murakami, et al., Div. of Orthop. Surg., Niigata Univ. Graduate School of Medical and Dental Sciences"—S76

1-7-21  Clinical result for developmental dysplasia of the hip in boys  "K. Iwata, et al., Dept. of Orthop. Surg., Aichi Children’s Health and Medical Center"—S77

1-7-23  Prognostic value of the pattern of bone resorption in the anterior aspect of the femoral head in LCPD treated with Salter innominate osteotomy  "K. Mishima, et al., Musculoskeletal and Cutaneous Surg., Graduate School of Medicine, Nagoya Univ."—S78

1-7-24  Whether hospital embarking therapy with abduction orthosis is useful for Perthes disease who developed on ages 8 and older  "T. Tetsunaga, et al., Dept. of Orthop. Surg., Okayama Univ. Hosp."—S78

1-7-25  Hip prognosis in pubic symphysis diastasis associated with cloacal extrophy  "R. Yamaguchi, et al., Dept. of Orthop. Surg., Graduate School of Medical Sciences, Kyushu Univ."—S79

1-7-26  Clinical results of treatment for pediatric femoral shaft fractures under 5 years old: Comparisons between elastic nailing and conservative therapy  "Y. Mochizuki, et al., Dept. of Orthop. Surg., Okayama Univ. Hosp."—S79
1-7-EL5  Over 50 year-follow-up study of so-called congenital dislocation of the hip

S. Mitani, et al., Dept. of Bone and Joint Surg., Kawasaki Medical School...S80

1-8-1  Investigation of factors affecting preoperative patient subjective evaluation in ACLR patients:
TMDU MAKS Study .......................... Y. Nakagawa, et al., Dept. of Cartilage Regeneration,
Graduate School of Medical and Dental Sciences, Tokyo Medical and Dental Univ...S81

1-8-2  Clinical study of the occurrence and type of meniscal tears following ACL injury
.............................. S. Oikawa, et al., Dept. of Orthop. Surg., Iwate Medical Univ...S81

1-8-3  Relationship between the prevalence of meniscus injury and duration from injury to surgery in
patients with anterior cruciate ligament injury .... A. Nakamae, et al., Dept. of Orthop. Surg.,
Graduate School of Biomedical & Health Sciences, Hiroshima Univ...S82

1-8-4  Risk factors for the prevalence of medial meniscus injury in patients with anterior cruciate
ligament injury .................................. T. Omoto, et al., Dept. of Orthop. Surg.,
Graduate School of Biomedical & Health Sciences, Hiroshima Univ...S82

1-8-5  A comparison of arthroscopic diagnosis of ramp lesion and pre-operative MRI Evaluation
Graduate School of Medical Sciences...S83

1-8-6  The effectiveness of MRI specific findings for lateral meniscus posterior root tear in ACL injuries
..... K. Asai, et al., Dept. of Orthop. Surg., Graduate School of Medical Sciences, Kanazawa Univ...S83

1-8-7  Study on the function of Collagen VI and XII as a new risk factor in anterior cruciate ligament
injury ........................................... S. Fukusato, et al., Dept. of Orthop., Juntendo Univ...S84

1-8-8  Morphology of anterior cruciate ligament tibial insertion site in young intact knees: Evaluation
using high resolution MRI ...... Y. Tashiro, et al., Dept. of Orthop. Surg., Kyushu Roai Hosp...S84

1-8-9  Cylindrical titanium-web promotes bone-tendon junction regeneration in ACL reconstruction
model using CLAWN-miniature swines
............................. K. Ryu, et al., Dept. of Orthop. Surg., The Jikei Univ. School of Medicine...S85

1-8-10 Evaluation of postoperative results in timing of weight bearing differences after anatomic
double-bundle anterior cruciate ligament reconstruction
................................. S. Yanagisawa, et al., Dept. of Orthop. Surg., Zenshukai Hosp...S85

1-8-11 Elevation of inflammatory cytokines level in the synovial fluids and delay functional recovery
are associated with IFP fibrosis after ACL reconstruction ............. Y. Nakagawa, et al.,
Dept. of Cartilage Regeneration, Graduate School of Medical and Dental Sciences,
Tokyo Medical and Dental Univ...S86

1-8-12 Related between the muscle fiber types of semitendinosus and the normal side of leg extension
force following anterior cruciate ligament reconstruction
............................. T. Kobayashi, et al., Dept. of Orthop. Surg., Sunrise Sakai Hosp...S86

1-8-LS5  Periarticular multi-drug injection for pain control following orthopaedic joint surgeries
............................... S. Tsukuda, Dept. of Orthop. Joint Surg., Hokusuiikai Kinen Hosp...S87

2-3-S17-4 Clinical diagnosis of hip disorders using ultrasonography

T. Yamasaki, et al., Dept. of Artificial Joints and Biomaterials, Graduate School of Biomedical & Health Sciences, Hiroshima Univ.---S342

2-3-S17-5 Positron emission tomography for the evaluation of disorders in hip joint

H. Choe, et al., Dept. of Orthop. Surg., Yokohama City Univ.---S343

2-3-LS13-1 Soft tissue management and wound closure for artificial joint replacement of lower limb: Toward patient satisfaction by early post-operative recovery

A. Kuwasawa, Saitama Cooperative Hosp.---S344

2-3-LS13-2 Actual surgical procedure in primary total hip arthroplasty: Positive effects caused by simple ingenuity T. Kabata, Dept. of Orthop. Surg., Graduate School of Medical Sciences, Kanazawa Univ.---S344

2-3-S18-1 The characteristics of rotational acetabular osteotomy

2-3-S18-2 Indications and surgical methods of eccentric rotational acetabular osteotomy for adult hip dysplasia Y. Hasegawa, Kansai Univ. Welfare Sciences---S345

2-3-S18-3 Transpositional osteotomy of the acetabulum Y. Nakashima, et al., Dept. of Orthop. Surg., Graduate School of Medical Sciences, Kyushu Univ.---S346

2-3-S18-4 The benefits of curved periacetabular osteotomy K. Kinoshita, et al., Dept. of Orthop. Surg., Fukuoka Univ.---S346

2-3-S18-5 Spherical periacetabular osteotomy advantage and disadvantage against other periacetabular osteotomy T. Hara, et al., Dept. of Orthop. Surg., JCHO Kyushu Hosp.---S347

2-3-EL20 The clinical outcome and recent topics of hip arthroplasty M. Osaki, Dept. of Orthop. Surg., Nagasaki Univ. Graduate School of Biomedical Sciences---S348

16 : 40~18 : 00 Symposium 19 Moderators T. Sawaguchi, B. Masri

Periprosthetic hip fracture

2-3-S19-1 Classification and decision making algorithm (including new classification system of periprosthetic fracture, preop. evaluation) B. Masri, Univ. of British Columbia, Vancouver, Canada---S349

Vancouver Type C periprosthetic and interprosthetic femoral fractures: Current concept in their managements .......................... Y.-S. Park, Dept. of Orthop. Surg., Samsung Medical Center, Sungkyunkwan Univ. School of Medicine, Seoul, Korea…S350

2-3-S19-4

|            |                         |           |

| 13:50-15:10 | Symposium 22             | E. Chosa, Y. Uchio |
|            | Medical check up, diagnosis, and treatment for adolescent sports injury |                        |
| 2-4-S22-1  | Sports disorders in the school medical examination for locomotive organ | S. Arai, Arai Orthop…S359 |
| 2-4-S22-2  | Medical check up for youth baseball players in Yokohama: Dreams for children | T. Iwama, et al., Iwama Orthop. Clinic…S359 |
2-4-S22-3 Elbow injuries in young baseball players .................................. T. Tsuruta, et al., Tsuruta Orthop. Clinic...S360
2-4-S22-4 The throwing shoulder during adolescence .................................. M. Hara, Dept. of Orthop. Surg., Hisatsune Hosp...S360
2-4-S22-5 Diagnosis and treatment of lumbar stress fracture in adolescent sports player .......................................................... S. Oba, Oba Orthop...S361

15 : 25~16 : 25 Instructional lecture 22 Moderator T. Okuwiki

2-4-EL22 Sports injury of the plantar foot: Anatomy and pathogenesis .......................................................... K. Watanabe, Dept. of Physical Therapy, Sapporo Medical Univ...S362

16 : 40~18 : 00 Symposium 23 Moderators R. Izumida, K. Marumo
Sports activities in super-aging society: Roles of orthopaedic surgeons

2-4-S23-1 The environment surrounding locomotive syndrome and necessity of awareness-raising project and prevention of locomotive syndrome .......................................................... E. Chosa, Dept. of Orthop. Surg., Miyazaki Univ...S363
2-4-S23-2 Age-related changes in muscle strength, spinal kyphosis angles, spinal mobility, and prevalence of Locomotive syndrome .......................................................... Y. Kasukawa, et al., Dept. of Orthop. Surg., Akita Univ. Graduate School of Medicine...S363
2-4-S23-3 Super aging society and sports activities: Consideration from the perspective of the spinal column and trunk .......................................................... H. Nakamura, et al., Dept. of Orthop. Surg., Osaka City Univ. Graduate School of Medicine...S364
2-4-S23-4 Present situation and unsolved issue of sport activity and conservative treatment in patient with knee osteoarthrits .......................................................... G. Omori, Dept. of Health and Sci., Niigata Univ. of Health and Welfare...S364
2-4-S23-5 Athletic activity after knee surgeries for osteoarthrits .......................................................... S. Matsuda, Dept. of Orthop. Surg., Graduate School of Medicine, Kyoto Univ...S365

2nd Day May 10 Room 7

8 : 00~9 : 20 Symposium 24 Moderators T. Ueda, M. Emori
Multidisciplinary approach to treatment of sarcomas

2-7-S24-1 Establishment of Japanese Association of Sarcoma Treatment and Research –JSTAR– ............................................. A. Kawai, et al., Dept. of Musculoskeletal Oncology and Rehabilitation, National Cancer Center Hosp...S366
2-7-S24-2 Multidisciplinary approach on diagnosis of sarcoma .......................................................... T. Yamaguchi, et al., Dept. of Pathol., Dokkyo Medical Univ. Saitama Medical Center...S366
2-7-S24-3 Role of medical oncologist for multidisciplinary treatment of sarcoma .......................................................... S. Takahashi, Cancer Institute Ariake Hosp...S367
2-7-S24-4 The role of carbon ion radiotherapy in sarcoma treatment in Japan .......................................................... R. Imai, Hosp. of the National Institute of Radiological Sciences...S367
2-7-S24-5 New medical care cooperation for patients with bone and soft-tissue tumors between a high volume center and a newly established heavy ion therapy center .......................................................... N. Naka, Div. of Orthop., Osaka International Cancer Center...S368

9 : 35~10 : 35 Instructional lecture 23 Moderator K. Tsuchiya

2-7-EL23 The current situation and future direction of pelvic and retroperitoneal sarcoma surgery .......................................................... T. Akiyama, Dept. of Orthop. Surg., Saitama Medical Center, Jichi Medical Univ...S369
2-7-S25-1 Current survey of commitment of orthopaedic surgeons to cancer care in the training institutes of the Japanese Orthopaedic Association

2-7-S25-2 Involvement of orthopaedic surgery for cancer treatment of designated cancer hospitals in Japan

2-7-S25-3 The role of the orthopaedic surgeons in the core cancer hospitals: Current status and problems in a rural university hospital

2-7-S25-4 Clinical care of orthopaedics in a core hospital of pediatric cancer center: Follow-up modality for musculoskeletal system for childhood cancer survivors and treatment modality of pediatric bone and soft tissue sarcoma

2-7-S25-5 Study and training for the subspecialty in cancer hospital

2-7-S26-1 Surgery for skeletal metastasis: Comprehensive management of locomotive syndrome in cancer patients

2-7-S26-2 Treatment strategy for skeletal metastasis using prognostic model

2-7-S26-3 Treatment strategy of pathological fracture of bone metastasis: From the point of view of an orthopaedic trauma surgeon

2-7-S26-4 Risk factors for intraoperative hemorrhage in skeletal metastatic bone tumors

2-7-S26-5 Reconstruction for metastatic bone tumor in extremities using liquid nitrogen-treated tumor bearing bone

2-7-EL24 Diagnosis and treatment of vascular lesions

2-8-S27-1 When suspecting child abuse from images
The child protection team for early detection of child abuse and the diagnostic role of orthopedic surgeons  
Y. Eguchi, et al., Div. of Orthop. Surg., National Center for Child Health and Development...S378

Management of child abuse at the university hospital: The role of orthopaedists  
K. Ohada, et al., Orthop. Surg., Graduate School of Medicine, The Univ. of Tokyo...S379

Management and training program for child abuse and neglect  
M. Senda, Dept. of Pediatrics, Asahi Hosp...S379

Role of the medical institution in the abuse correspondence: Request to orthopaedists  
A. Kinoshita, Shikoku Medical Center for Children and Adults...S380

Bone and joint infections and differential diagnoses in children  
K. Takamura, Dept. of Orthop. Spine Surg., Fukuoka Children's Hosp...S381

Surgical treatment for the patients with skeletal dysplasia in the children's hospital  
D. Kobayashi, et al., Dept. of Orthop. Surg., Kobe Children's Hosp...S382

Problems after adulthood in skeletal dysplasias  
H. Kitoh, et al., Musculoskeletal and Cutaneous Surg., Graduate School of Medicine, Nagoya Univ...S382

Treatments for hip diseases in adults with genetic skeletal disorders  
R. Yamaguchi, et al., Dept. of Orthop. Surg., Graduate School of Medical Sciences, Kyushu Univ...S383

Lower limb disabilities and their treatment in adults with skeletal dysplasias  
N. Haga, Rehabilitation Center, The Univ. of Tokyo Hosp...S383

Orthopaedic considerations and treatments for adults with osteogenesis imperfecta  
M. Kitano, et al., Dept. of Orthop. Surg., Osaka National Hosp...S384

Adult hypophosphatasia: A disguised adult bone metabolic disease in orthopaedic outpatients  
N. Ito, Div. of Nephrology and Endocrinology, The Univ. of Tokyo Hosp...S385

Outcome of Glisson traction for atlantoaxial rotatory fixation  
T. Yamaguchi, et al., Dept. of Orthop. and Spine Surg., Fukuoka Children's Hosp...S386

Gait disturbance and limp: How we diagnoste? When we refer?  
K. Aoki, et al., Dept. of Orthop. Surg., Asahigawasou Rehabilitation and Medical Center...S386

How do we deal with developmental dysplasia of the hip?  
Y. Segawa, et al., Dept. of Orthop. and Spinal Surg., Graduate School of Medical and Dental Sciences, Tokyo Medical and Dental Univ...S387

Our conservative abduction brace treatment without partial weight bearing for patients with Legg-Calvé-Perthes disease  
H. Fujita, et al., Dept. of Orthop. Surg., Hokkaido Medical Center for Child Health and Rehabilitation...S387

Juvenile idiopathic arthritis: Diagnosis and treatment  
T. Imagawa, Dept. of Infection Diseases & Immunology, Kanagawa Children’s Medical Center...S388

Current and future role of orthoplastic trauma surgeon
N. Maegawa, et al., Dept. of Emergency and Critical Care Medicine, Nara Medical Univ.

Instructional lecture 30
Moderator H. Chikuda

Medical safety on pharmaceuticals and medical devices
K. Ishii, Pharmaceuticals and Medical Devices Agency

Symposium 38
Endoscopic surgical skill qualification and medical safety
Moderators A. Okawa, H. Yamada

Improving patient safety in certification system of knee arthroscopic surgery
Y. Ishibashi, Dept. of Orthop. Surg., Hirosaki Univ. Graduate School of Medicine

Medical safety system of the Committee on Spinal Endoscopic Surgical Skill Qualification of the Japanese Orthopaedic Association
T. Hasegawa, Dept. of Orthop., Traumatology and Spine Surg., Kawasaki Medical School

Current status of endoscopic surgical skill qualification system of the Japanese Society of Endoscopic Surgery

The surgical skill accreditation system and medical security: The Japan Society of Gynecologic and Obstetric Endoscopy and Minimally Invasive Therapy
T. Takeshita, Dept. of Obstetrics and Gynecology, Nippon Medical School

Endoscopic surgical skill qualification system in urological laparoscopy in Japan and patient safety
T. Habuchi, Dept. of Urology, Akita Univ.

Symposium 39
Treatment strategies of ankle sprain
Moderators S. Ozeki, M. Takao

Anatomy and biomechanics of ankle lateral ligament
T. Hirano, et al., Dept. of Orthop. Surg., St. Marianna Univ. School of Medicine

How do you diagnose ankle sprain?

Conservative treatments for acute lateral ankle sprain
S. Isomoto, et al., Dept. of Orthop. Surg., Nara Prefecture General Medical Center

Indication and clinical results of arthroscopic lateral ankle ligament repair
H. Tanaka, et al., Hyakutake Orthop. and Sports Clinic

Clinical results of the arthroscopy assisted anatomical reconstruction for the lateral ankle ligament insufficiency
T. Yamazaki, et al., First Dept. of Orthop. Surg., Dokkyo Medical Univ. Saitama Medical Center

Instructional lecture 31
Moderator T. Hashimoto

Functional recovery in athletes with foot and ankle disorders: Functional anatomy and assessment
T. Kumai, Faculty of Sport Sciences, Waseda Univ.

Symposium 40
Treatment strategies of osteochondral lesions of the talus
Moderators H. Kura, N. Adachi

Diagnostic imaging of osteochondral lesions of the talus: What and how should we evaluate?
K. Hayashi, et al., Foot & Ankle Center, Otemae Hosp.

Bone marrow stimulation technique for osteochondral lesion of talus
Autologous osteochondral transplantation for talar osteochondral lesions: Past, present, future

The role of biologics in the treatment of osteochondral lesions of the talus
Y. Shimozono, New York Univ. School of Medicine, New York, NY, USA

Therapeutic strategy for cartilage regeneration in osteochondral lesion of talus
T. Nakasa, et al., Dept. of Orthop. Surg., Graduate School of Biomedical & Health Sciences, Hiroshima Univ.

Lancheon seminar 19
Y. Mochida

Our strategies in comprehensive care for patients with rheumatoid arthritis
J. Hashimoto, et al., National Hosp. Organization, Osaka Minami Medical Center

Symposium 41
H. Niki, Y. Tochigi

Treatment strategies of ankle osteoarthrosis

Ankle osteoarthritis: Pathogenesis and treatment strategy
N. Haraguchi, et al., Dept. of Orthop. Surg., St. Marianna Univ. School of Medicine, Yokohama City Seibu Hosp.

Low tibial osteotomy for the patient with osteoarthritis of the ankle

Surgical indication and results of distal tibial oblique osteotomy

The adaptation and short-term postoperative results of arthroscopic ankle arthrodesis in our hospital
K. Noguchi, et al., Dept. of Orthop. Surg., Kurume Medical Center

Indication and surgical results of total ankle arthroplasty
N. Kanzaki, et al., Dept. of Orthop. Surg., Kobe Univ. Graduate School of Medicine

Instructional lecture 32
N. Usami

How to examine and think of adult acquired flatfoot deformity learning from cases
H. Niki, Dept. of Orthop. Surg., St. Marianna Univ. School of Medicine

Symposium 42
K. Inagaki, T. Wada

Elbow arthroscopic surgery —video session—

Arthroscopic fracture fixation and ligament repair for elbow
J. In-Ho, et al., Dept. of Orthop. Surg., Asan Medical Center, Ulsan Medical School, Seoul, Korea

Arthroscopic release for stiff elbow

The treatment for arthritis of elbow with arthroscopy

Arthroscopic surgery for medial epicondylitis

Knacks and Pitfalls of Arthroscopic Osteochondral Autograft Transfer (OAT) for Osteochondritis Dissecans of the Humeral Capitellum

</table>
Pharmacological treatments and orthoses of hand osteoarthritis .......... Y. Nakagawa, et al.,
Dept. of Hand Surg., Graduate School of Medicine, Nagoya Univ...S448

Osteophyte and capsule excision for a mucous cyst combined with Heberden's node
........................... T. Kataoka, et al., Dept. of Orthop. Surg., Hoshigaoka Medical Center...S449

8:00~9:30 Symposium 46 Moderators K. Tamai, T. Kobayashi
Treatment strategies of primary irreparable rotator cuff tear

2:13-S46-1 Arthroscopic-assisted pectoralis minor transfer for irreparable anterosuperior massive
2:13-S46-2 Clinical outcome of arthroscopic partial rotator cuff repair and patch procedure for
irreparable rotator cuff tear ..................................... T. Hirose, et al., Asabu Orthop. Hosp...S450
2:13-S46-3 Treatment algorithm of irreparable rotator cuff tears by using superior capsule
reconstruction ....................... T. Mihata, Dept. of Orthop. Surg., Osaka Medical College...S451
2:13-S46-4 Arthroscopic rotator cuff repair combined with muscle advancement
(Modified Debeyre-Patte method) ......................... M. Hirata, et al., Dept. of Orthop. Surg.,
AR-Ex Oyamadai Orthop. Clinic Tokyo Arthroscopy Center...S451
2:13-S46-5 Arthroscopic rotator cuff repair with muscle advancement and artificial biomaterial
augmentation for massive rotator cuff tears .......... S. Yokoya, et al., Dept. of Orthop. Surg.,
Graduate School of Biomedical & Health Sciences, Hiroshima Univ...S452

9:35~10:35 Instructional lecture 35 Moderator T. Nakagawa

2:13-EL35 Diagnosis and treatment of shoulder degenerative disease
 .......... N. Taniguchi, Dept. of Orthop. Surg., Graduate School of Medical and Dental Sciences,
Kagoshima Univ...S453

10:50~12:10 Symposium 47 Moderators H. Sano, N. Taniguchi
Clinical condition and treatment option for acromioclavicular joint dislocation

2:13-S47-1 Clinical results of non-operative treatment for complete dislocation of the acromio-clavicular
joint ............ H. Funasaki, et al., Dept. of Orthop. Surg., The Jikei Univ. School of Medicine...S454
2:13-S47-2 Conservative treatment of acromioclavicular joint separations in athlete
2:13-S47-3 Coracoclavicular ligament repair with temporary wire stabilization for the treatment of
acute acromioclavicular joint dislocation
............................................. N. Matsunuma, et al., Dept. of Orthop. Surg., Keio Univ...S455
2:13-S47-4 Modified Cadenat procedure for treatment of acromioclavicular dislocations
.................................................. T. Izaki, et al., Dept. of Orthop. Surg., Fukuoka Univ...S455
2:13-S47-5 Arthroscopic reconstruction of coracoclavicular ligaments for high-grade acromioclavicular
joint dislocations ................. K. Takase, et al., Dept. of Orthop. Surg., Tokyo Medical Univ...S456

12:25~13:35 Luncheon seminar 21 Moderator H. Ikegami

2:13-LS21 Easily-missed diagnosis of the shoulder disease and trauma
............................................................. Y. Uchiyama, Dept. of Orthop. Surg., Tokai Univ...S457
Complication and strategy for reverse shoulder arthroplasty

2-13-S48-1 Complications intra and after reverse total arthroplasty

2-13-S48-2 Intraoperative and postoperative complication of reverse shoulder arthroplasty
 дальнейшая информация: Y. Ito, Osaka Shoulder Center, Ito Clinic—S458

2-13-S48-3 Management of deep infection after reverse shoulder arthroplasty using cementless microstem

2-13-S48-4 To aim for good clinical outcome and preventing complication in reverse shoulder arthroplasty
 дальнейшая информация: N. Ochiai, et al., Dept. of Orthop. Surg., Graduate School of Medicine, Chiba Univ.—S459

2-13-S48-5 Future evolution of reverse shoulder arthroplasty
 дальнейшая информация: N. Mizuno, et al., Dept. of Orthop. Surg., Toyonaka Municipal Hosp.—S460

15:25—16:25 Instructional lecture 36 Moderator K. Takagishi

2-13-EL36 Difficulty in flexing the shoulder as sequelae of fracture and dislocation: Changes in disease condition and treatment strategy according to aging
 дальнейшая информация: S. Imai, Dept. of Orthop. Surg., Shiga Univ. of Medical Science—S461
